Medical tourism **H**ub  
Thermal & Spa Social Cooperative enterprise

## Reasons to choose Greece for your medical condition

European Union standards and Safety Protocols. Greece is Full Member of the E.U since 2001

Affordable cost: According to WHO The health system in Greece is ranked as one of the highest in the World, however, healthcare costs in Greece remain among the lowest in the world.

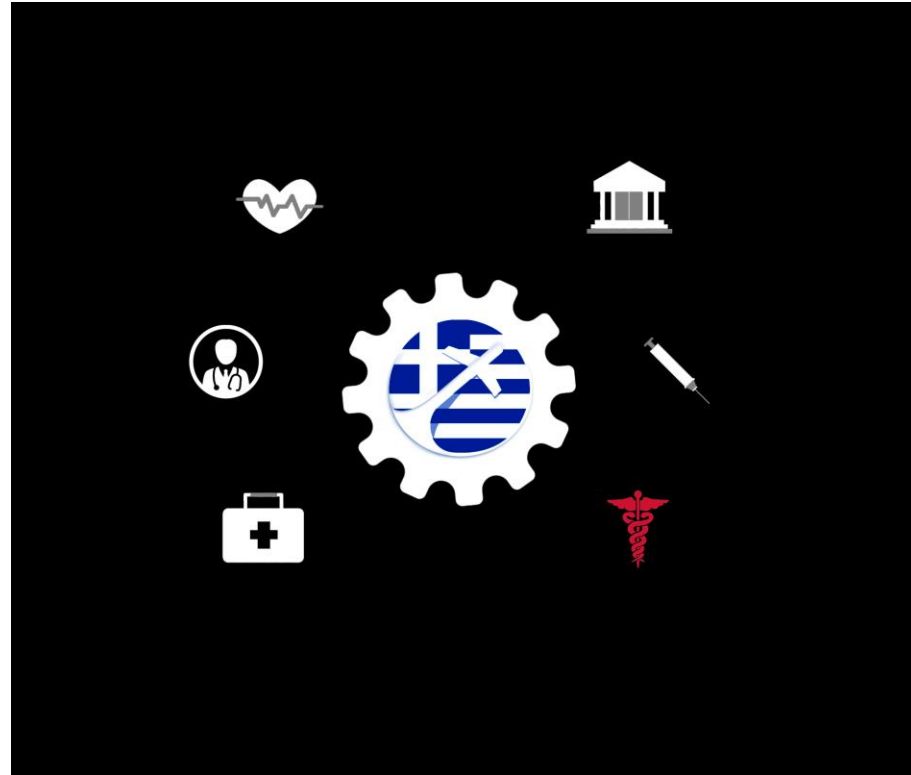

Renowned quality of hospitality Services.

Famous tourist attraction destination with highly developed hotel infrastructure

Social Enterprise under the distinctive title **Medical Tourism Hub** for social collective purposes is active in the field of tourism health and specifically in medical and thermal tourism. Its purpose is to communicate the comparative advantages of Greece abroad in the context of smart RIS3 specialization of EU aimed at its overall economic development.

Operates under the Social Registry of the Ministry of Labor and Social Insurance, with the current institutional framework (transitional provisions of Law 4430/2016 and a member of the Hellenic Medical Tourism Council, in strategic cooperation with the tourist agency Heronia Star a member of the Heaven Destinations P.C Group of Companies with the statutory purpose of promoting Greek Medical and spa tourism abroad

Medical Tourism Hub is a **medical cluster** comprised of fine private clinics-hospitals – rehabilitation centers, resorts and hotels in main cities combining healthy rejuvenate climate with the element of water. It has been founded by professionals of advertising, communication and tourism, as well as strategic partners par 3, article 2, of law 4019/2011 with the sole aim to attract patients from Europe and all over the world throughout the year, the organization of visits to near the Aegean sea hot springs and thermal baths

Our philosophy: We aim to offer along the medical services the whole spectrum of water therapies to elders with chronic conditions, middle aged who wish to rejuvenate, disabled and athletes with strains or pains of every kind. That includes, but not limited, therapeutic baths to thermal spa sources and water drinking of well-known, scientifically tested, healing springs combined with walking and cultural excursions to various nearby destinations.

Our collaborative teams show emotional Intelligence in order to understand the patient's needs and apprehensions, taking into consideration that they are under emotional pressure.

Have the basic knowledge of medical terminology. Have the knowledge of the political situation along with statistics about any infectious disease during the time of stay.

Have knowledge of insurance market. Show problem solving skills with regard to unexpected circumstances and emergency issues.

Act in confidence
